ANDROID DEVELOPER

Android Developer with expertise in designing, developing, and maintaining high-performance mobile applications using the latest Android technologies. Proficient in Kotlin, Java, and modern frameworks to create user-friendly, scalable, and efficient solutions. Strong collaborator with proven experience in cross-functional teamwork, problem-solving, and delivering customer-centric features. Dedicated to continuous learning and implementing innovative technologies like Room, Retrofit, and Coroutines to optimize app performance and user experience.

EDUCATION & QUALIFICATIONS

Bachelor of Computer Science

Modern Academy

09/2022 - 07/2026

EXPERIENCE

Coding Instructor

11/2024 - Present

Yat Learning Centers

Deliver comprehensive coding courses across various platforms, specializing in programming fundamentals, software development best practices, and practical project implementation. Mentor students through hands-on activities, fostering technical skills and career readiness. Contribute to curriculum design and content development, ensuring alignment with industry standards and emerging trends to equip learners for success in the tech field.

Mobile App Instructor

10/2024 - Present

3C online coding school

Instruct students in mobile application development using Flutter, ensuring mastery of core concepts and best practices. Provide mentorship and project guidance to support practical skill development. Contribute to curriculum design, aligning content with industry standards and emerging trends.

Prompt Engineer

09/2024 - 01/2025

Scale AI

Corrected and refined model responses to improve code quality, accuracy, and efficiency.

Reviewed and implemented effective prompting techniques to guide the model toward desired coding outcomes.

Collaborated with engineering teams to identify and address model limitations in code generation and understanding

Android Developer

08/2024 - 09/2024

intern at Banque Misr

Completed an internship at Banque Misr as an Android Developer, utilizing Jetpack Compose to develop high-quality applications. Recognized for adhering to industry standards and delivering robust code and app functionality

Flutter developer

07/2023 - 09/2023

Gensystem

Interned at Gensystem as a Flutter Developer, where I contributed to the development of cross-platform mobile applications. I received recognition for delivering efficient and scalable code, and I effectively collaborated with cross-functional teams to enhance project outcomes

SCHOLARSHIPS

Android Development

04/2024 - 10/2024

DEPI

Android Development training (soft skills-java-Kotlin-xml-flutter-testing-security-jetpack compose)

SKILLS

Frameworks: Flutter, Kotlin (JVM)

Programming Languages: html , css , javascript, Java, C++, Python, PHP , Kotlin ,dart , flutter, sqlite

Concepts: Object-Oriented Programming (OOP), SOLID Principles

Tools: Android Studio, Git, Jira, figma, gradle, firebase

PROJECTS

Signy

https://github.com/eyadamr905/Signy_V1.1

Developed a sign language translation application using Flutter and Firebase, enhancing accessibility and communication for users. Leveraged real-time database capabilities to ensure seamless interactions and updates.

What Know

<https://github.com/eyadamr905/WhatNow-NewsApp>

Launched 'What Know,' a news application using Jetpack Compose, Retrofit API, and the MVVM architecture. Designed to provide users with a seamless and engaging experience, the app features real-time news updates and a user-friendly interface for easy navigation

jobfiy

<https://github.com/eyadamr905/Jobfiy>

Jobfiy is an application designed to help users search for jobs and track their job applications. It leverages modern Android development practices using Jetpack Compose for the UI and Retrofit for network operations.

VOLUNTEERING

Project Management Assistant

10/2022 - 08/2024

Enactus modern academy

member at Enactus modern academy as a research & development. also contributed as a project manager.

Flutter Instructor

10/2023 - 05/2024

GDSC modern academy

Contributed as an instructor at GDSC Modern Academy, and receiving compliments for latte art and presentation.

Languages

Arabic: Native

English: Proficient in reading and writing, moderate speaking skills.

Available for internships and project collaborations.

Open to relocation and remote work opportunities.
